HINGE LEFT or HINGE RIGHT?

DEFINITIONS

HINGE LEFT = When pulling the door towards you, hinge is on the LEFT.
HINGE RIGHT = When pulling the door towards you, hinge is on the RIGHT.

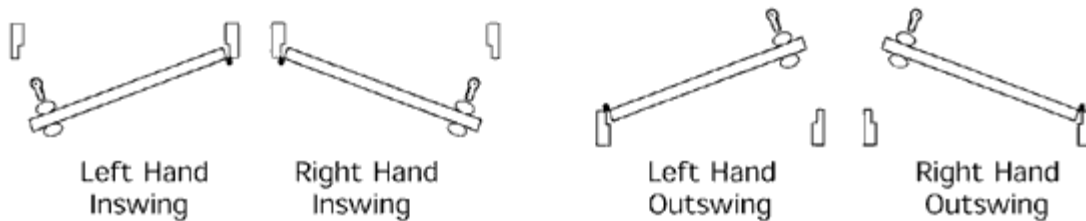

Swinging Screen Doors (as well as Storm Doors) are usually categorized and labeled by HINGE, and they must be ordered by HINGE.

HINGE is often confused with HAND which is a common way of calling doors that many handymen might be familiar with. **HINGE IS THE OPPOSITE SIDE OF HAND!**

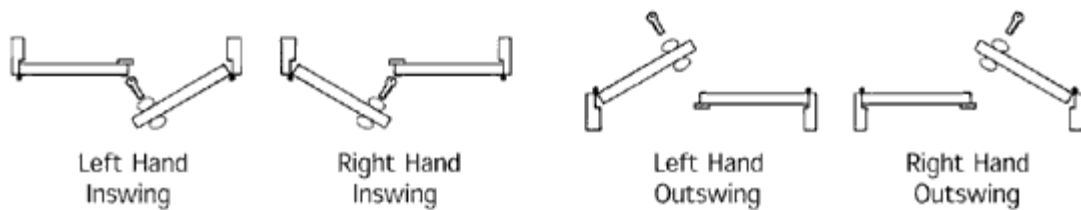

If someone orders a RIGHT HAND door, they probably want a HINGE LEFT. If someone orders a LEFT HAND door, they probably want a HINGE RIGHT.

EXAMPLES OF DOORS BY HAND (MUST ORDER OPPOSITE FOR HINGE)

SINGLE DOOR

DOUBLE DOOR

NOTES

If a customer uses the term “Hand” when ordering their door, get specific confirmation about how they want the door to operate to avoid any confusion.
